U.S. Court of Appeals for the Federal Circuit has concluded that a proper rejection must provide reasoning why a specific feature is a matter of design choice, and therefore obvious. In re Chu, 36 USPQ 2d 1089 (Fed. Cir. 1995).

Accordingly, Applicants respectfully submit that Khan et al. fails to teach or suggest the unique combination and arrangement of elements recited in Applicants' claim 1.

In view of the foregoing amendments and remarks, Applicants respectfully submit that claim 1 is allowable. Claims 2-10 depend upon claim 1, and are therefore allowable for at least the reasons that claim 1 is allowable. In addition, Claim 15-23 are allowed, as indicated by the Examiner.

In view of the foregoing amendments and remarks, Applicants respectfully submit that this application is in condition for allowance. Favorable consideration and prompt allowance are solicited.

The Commissioner is authorized to charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account No. 50-1353.

Respectfully submitted,
